We have the track record, expertise and experience you can **TRUST**

Proforma Safety International offers a team of certified engineering and safety professionals that have the training, experience and resources to ensure your company's interests are protected.

We believe the customer should be informed of all HSE issues for any operation in which the company is involved, including those related to contractors, sub-contractors and vendors. *Proforma Safety* knows that failure to deal with insufficient performance, ignorance or neglect can result in increased number of incidents, which lead to claims and/or litigation.

ABOUT PROFORMA SAFETY

Proforma Safety has delivered HSE services for more than 25 years. We are a cost effective and reliable resource for time-tested HSE programs, comprehensive safety auditing, onsite HSE representation, advanced safety management practices and full HSE coverage by our S.W.A.T. (Safe Work Awareness Team).

TACKLING YOUR BIG ISSUES

Are your HSE programs and policies being executed as intended? *Proforma Safety* can conduct audits to make sure your processes and programs are executed as designed, including Stop the Job, HAZID, HAZOP and Management of Change. We can oversee operations on your worksites and help you meet deadlines, reduce cost, and keep safety your top priority.

ON SITE SUPERVISION, AUDITING AND INSPECTION

Proforma Safety can review the HSE performance of your operating units for compliance with your procedures, policies and legal requirements. We conduct HSE audits for onshore and offshore drilling and production sites, facilities and construction sites, contractor-maintained sites and vendor or contractor manufacturing sites. We conduct USCG and ABS marine audits for offshore ships, vessels, drilling rigs, platforms and structures, as well as contracted ships, vessels and equipment.

CREATING A SAFETY CULTURE

We believe strong safety performance requires (1) setting specific, measured objectives; (2) communicating compliance and accountabilities; (3) empowering personnel; (4) learning from others and leading by example; (5) aggressively resolving system issues; (6) working every day to improve safety.

FACILITATING LEARNING

We believe strongly that safe workplaces evolve through education and by setting good example. Safe practices and principles underscore every training session we offer, whether online through our website, in the classroom or toolbox/tailgate safety meetings.

A RANGE OF INDUSTRIES

Proforma Safety can provide HSE advisors with extensive experience in onshore and offshore projects, pipeline, LNG, natural gas, wind, carbon sequestration, manufacturing and construction. We also serve the marine and aviation industries.

AREAS OF OPERATION

Proforma Safety serves clients across the U.S., Canada, the Caribbean, South America and Europe.

OUR CLIENTS

Our clients have included Angola LNG, ARCO, Battelle, BP, Chesapeake Energy, Chevron, ConocoPhillips, ExxonMobil, Global Marine, Hess, Marathon, Nodal Seismic, Petrobras, PGS, Prime Natural Resources, Shell, Socotherm Labarge, Vestas Tower and Western Geophysical.

"Safety is your top priority. We're on your site every day to make sure that 'safety first' actually happens."

— Mike Arnold, *Proforma Safety* CEO

PROJECT MANAGEMENT AND ENGINEERING DIVISION

Proforma Safety International LLC is proud to announce that they have formed a new division focused on Project Management and Engineering. This new division provides experienced and proven resources to staff our client's projects, without corporate overhead. This division is led by Rod Coleman, our VP of Project Management and Engineering, who has over 32 years of experience in managing major CAPEX projects. Coupled with *Proforma Safety International's* 30 years of project experience means you're getting a team that has the knowledge and expertise to manage all aspects of your project. Our goal is to provide clients with the quality they expect without paying the cost associated with large engineering firms.

For one client alone, we've helped achieve 15 million man hours without a Days Away From Work Case (DAFWC) injury.

Proforma Safety can help manage your

ASSETS
